Does not require special conditions especially root. To be more clear, you can follow the install steps below. The first step, please select and download one of the MOD versions via the button we have provided above. And make sure the APK file is downloaded 100% perfectly so it doesn't crash when it's installed. After the download is complete, save the APK file in one of the folders in your phone's internal memory. Then before proceeding with the install process, first enter the Phone Settings menu > Security > enable Unknown Sources / Allow Install applications from Outside Play Store. Then please run the Naruto Senki Mod game apk file installation and wait until the install process is complete. When finished, you can immediately run the game and enjoy playing.
